12. **Inclusiveness –** We promote full participation of stakeholders in our endeavors at the organization and community level.

Our Services

01

Research, Monitoring & Evaluation Services

Oxstar offers multi-disciplinary research, monitoring, and evaluation services consisting of surveys, data collection, analysis, report development, baseline, and mid-line and end-line evaluations. Our experts can assist you in developing Monitoring and Evaluation (M&E) frameworks, plans, and tools in line with global M&E frameworks. We support the development of standard project conceptual/logical frameworks, key performance indicators, and targets for new projects. We also provide ongoing and periodic third-party monitoring, success stories documentation and organization capacity assessment services.

02

Training & Institutional Capacity Development Services

Oxstar offers market-oriented professional skills that give our clients a better-skilled and competent workforce. We provide various capacity-building services, including human development, leadership, financial management, strategy management, project management, marketing, business plan development, women & youth empowerment, gender equality, and soft skills training to our esteemed clients in the Horn of Africa. We also provide research training services. Our training courses are offered at the Oxstar training facility or on-site at customer premises.

03

Disaster Risk Management Services

Oxstar offers state-of-the-art disaster risk management services in protracted crisis environments in the Horn of Africa countries. To reduce the number of fatalities and climate-related shocks caused by disasters, we contribute to their mitigation, readiness, response, recovery, and restoration efforts that meet the needs of our clients. Our disaster and risk management experts have vast knowledge and apply innovative community-centered disaster, and risk management approaches in all our DRM assignments. Oxstar works with county/local government institutions, humanitarian agencies, national governments, civil society organizations, and private institutions to strengthen our clients' capacity to reduce disaster-related vulnerabilities in the Horn of Africa region.

04

Agriculture, Livelihood & ClimateChange

Oxstar provides technical consultancy services in food security, nutrition, horticulture, innovative climate change solutions, agribusiness, greenhouse management, vertical farming, urban farming, value additions, and natural resource management. We also build the capacity of local agro-pastoral farmers in the Horn of Africa by providing good agricultural practices, seed quality, post-harvest losses, tree planting, and provision of agronomic support & fodder production

05

Policy Development & Strategic Planning

Oxstar has a pool of competent local and international policy development and strategic planning experts. Our experts will assist you in making informed choices of what will be your policy options and strategic priorities using various tools and approaches. Oxstar offers institutional capacity assessments, strategic plan development, annual plans, and framework reviews to streamline organization programming and service delivery in protracted crisis countries in the Horn of Africa
